Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes. See below how to interpret the €uroStar catalogue.

★★★★★ €uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

Rank

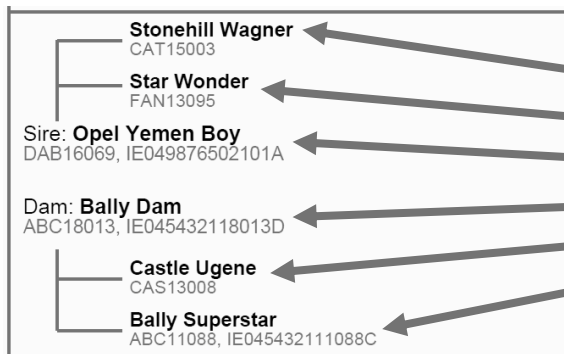

- This figure indicates more precisely where the animals rank within the breed. eg. Top 16% (see example below)
- This is displayed with a shaded line, the further to the right these are on the scale, the better its position within the breed.

Acc% (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa.
- Accuracy is displayed for the Replacement & Terminal Indices. It is not displayed for the four sub-traits. If an animal has high accuracy on Replacement & Terminal, it will be high accuracy across all traits.

Acc% parameters
V.Poor, 0% - 19% Poor, 20% - 34%
Fair, 35% - 44% Good, 45% - 59%
V.Good, 60% and above

1) Replacement (€3.44) – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.

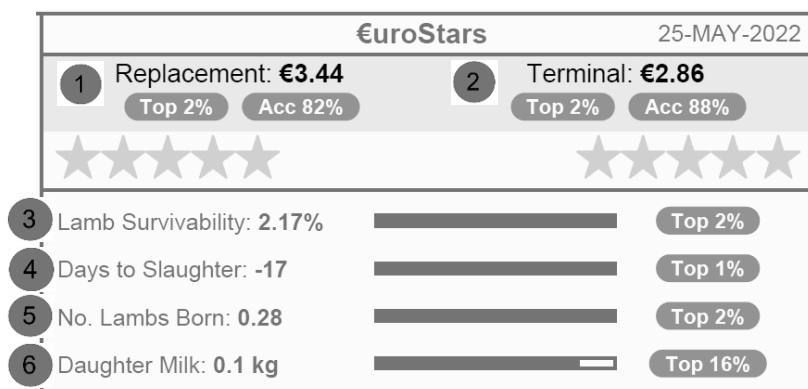

2) Terminal (€2.86) – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.

3) Lamb Survivability – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.

4) Days to Slaughter – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.

5) No. of Lambs Born – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.

6) Daughters Milk – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

RamSearch.ie

The Sheep Ireland Online Ram search is also available at ramsearch.ie, you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.

Eoghan Barrett – Alloon Flock (BE)

Alloon Belclares was established in 2015 and has been performance recording with Sheep Ireland since and were nominated for the highest achieving LambPlus flock in 2019.

Our breeding policy is strongly focused on sheep confirmation and stars with the view to increasing the output from our sheep.

Our service sires used are ALL double 5 star with most of them in the TOP 5% in both replacement and terminal. They are carefully selected from our best breeding lines with top figures.

All animals are on the Covexin 10 vaccination programme.

Anthony Nea – Ringfort Flock (AN)

We are first generation farmers and purchased our first flock of Belclares in 2020. We made the decision to go with Belclares due to their docile nature, easy lambing and prolificacy. We are an enclosed flock. We have a number of good quality sheep for sale catering for both the pedigree and commercial markets. All sheep are bolused and on the Heptavac p programme. The current ram in use is Reserved Champion 2021 (Knockcroghery Gram)

David Craig – Abbeyview Pedigrees (CR)

We are delighted to be part of this in-lamb sale. This is our first time selling females as we were only established in 2022 with our foundation females coming from the renowned Knockcroghery flock's dispersal sale, along with other female purchases from the Violet Hill, Alloon, Kilmeany and Moatland flocks. We put great emphasis on breed characteristics, size and maternal traits.

We have been lucky at shows since we started showing Belclare sheep with getting placed at National and All-Ireland levels in the last two years.

We wish all our prospective buyers the very best of luck with their purchases at this sale.

All our hogget ewes are dosed, mineral drenched, and are vaccinated with Toxovac and Enzovac and are on the Heptavac P Plus programme.

Our ewe lambs are dosed, mineral drenched, and are vaccinated on the Heptavac P Plus programme.

Service Sires Used

Knockcroghery Gram: Used by the kind permission of Roy Butler from the Moatland flock. Gram was reserve champion at the premier sale in 2021. Gram is a four and five star ram.

Michael Gottstein – Abbeyview Pedigrees (CR)

The Coolkellure Belclare Flock was formed in 2004 with the purchase of five hogget ewes from the Slanemore Hill Flock. We continued to grow the flock with some purchases from other well established flocks and by keeping our best ewe lambs annually until 2008. Since 2008 we have operated a closed flock and have not purchased any belclare females.

Since 2010 we have only purchased five star rams. We have selected rams based on type, style, power and performance records.

Recent success for the Coolkellure flock has been being awarded the reserve champion ram at both the 2022 and 2023 premier sale. We also bred and sold the ewe the bred the 2023 premier sale champion and there is a hogget ewe from the same female line in our consignment today.

The service sires for the hogget ewes entered in today's sale were both purchased at the 2023 premier sale for their high star rating, size, power, style and high belclare percentage.

- Oltore Hurricane, purchased jointly with the Luskenagh Flock at the 2023 Premier for €1,800. He is Top 1% on both Replacement and Terminal index and is five stars across all four sub-indices.
- Silverbrook Jameson, purchased at the 2023 Premier. He is a really good Terminal Ram Top3% on Terminal and Top 1% on Days to Slaughter.

All our sheep and on the Heptavac P Plus system and the ewes in this sale will need their annual booster shot 4-6 weeks pre lambing. Ewes were treated for rumen fluke (Zanil) and lice (Dectospot) pre mating.

We wish all purchasers the best of luck with their purchases.

Michael Gottstein

Membership Application Form

Name: _____

Address: _____

_____ Eircode: _____

Tel: _____ Mobile: _____

Email: _____ Flock Designator: IE04 _____

Flock Name: First Choice: _____

Second Choice: _____

I _____ wish to apply for membership of the Belclare Sheep Society. I agree to be bound by the terms and conditions of the society and agree to pay a joining fee of €127 and €1 for one share in the Society (€128 total by cheque or PO). I understand that I need to possess at least three pedigree registered Belclare females to become a member of the Society.

Signed: _____ Date: _____

This form should be completed, signed and sent with appropriate fees and pedigree certificates of your Belclare females to:

**Jillian McCarthy,
Ballybeg,
Buttevant,
Co. Cork.
085-2774010.
belclaresec@gmail.com**

All pedigree certificates will be returned to you. Cheques or postal orders must be made payable to the Belclare Sheep Society.

Conditions of Sale

1. The highest bidder will be the purchaser. If any dispute should arise between two or more bidders, the lot in dispute will be put back up for auction and resold or the auctioneer may declare the purchaser.
2. All sheep are to be removed from the mart at the expense of the purchaser by the close of sale. All sheep are at the risk of the purchaser from the time of purchase and are to be taken with any faults or errors of description. All purchases are to be made with the distinct understanding that no guarantee or warranty is given and shall be the risk of the purchaser from the fall of the hammer.
3. All animals are sold as they stand, and the purchaser is deemed to have examined each animal to fully satisfy him/herself with the sheep prior to purchase.
4. Animals are sold in euros and are subject to mart fees. The purchaser is responsible for payment upon fall of the hammer.
5. Sellers and auctioneers hereby excluded have described the sheep to the best of their ability and knowledge, any express or implied conditions, warranty or representation statutory or otherwise.
6. Each purchaser is to give their name and other required information to the mart in advance of the sale. A unique purchaser number will be assigned at this time.
7. All statements in the catalogue or announced by the auctioneer at the time of sale in relation to a sheep are believed to be correct. This information will be guaranteed by the vendor and no liability will be taken by the Auctioneer or committee for the statements appearing in the catalogue. The vendor is therefore responsible for any error or misrepresentation.
8. Service dates and service sires are stated in the catalogue but no guarantee can be given in relation to the accuracy of the dates or sires. Ewes are scanned in lamb on the day of sale but this only stands on sale day. Ewes cannot be guaranteed in lamb beyond the sale day and the number of lambs they carry cannot be guaranteed whatsoever.
