Tullamore Mart - 057 932 1196

Because you CAN have Quality with Quantity

Conditions of Sale

1. The highest bidder will be the purchaser. If any dispute should arise between two or more bidders, the lot in dispute will be put back up for auction and resold or the auctioneer may declare the purchaser.

2. All sheep are to be removed from the mart at the expense of the purchaser by the close of sale. All sheep are at the risk of the purchaser from the time of purchase and are to be taken with any faults or errors of description. All purchases are to be made with the distinct understanding that no guarantee or warranty is given and shall be the risk of the purchaser from the fall of the hammer.

3. All animals are sold as they stand, and the purchaser is deemed to have examined each animal to fully satisfy him/herself with the sheep prior to purchase.

4. Animals are sold in euro and are subject to mart fees. The purchaser is responsible for payment upon fall of the hammer.

5. Sellers and auctioneers hereby excluded have described the sheep to the best of their ability and knowledge, any express or implied conditions, warranty or representation statutory or otherwise.

6. Each purchaser is to give their name and other required information to the mart in advance of the sale. A unique purchaser number will be assigned at this time.

7. All statements in the catalogue or announced by the auctioneer at the time of sale in relation to a sheep are believed to be correct. This information will be guaranteed by the vendor and no liability will be taken by the Auctioneer or committee for the statements appearing in the catalogue. The vendor is therefore responsible for any error or misrepresentation.

8. Service dates and service sires are stated in the catalogue, but no guarantee can be given in relation to the accuracy of the dates or sires. Ewes are scanned in lamb on the day of sale, but this only stands on sale day. Ewes cannot be guaranteed in lamb beyond the sale day and the number of lambs they carry cannot be guaranteed whatsoever.

9. The Supreme Champion and Reserve Champion will be sold after the second ballot of Hogget Ewes.

10. Minimum selling price for Hoggets €350, Ewe Lambs €300.

€uroStar Evaluation Explanation Page

Important: Information in this catalogue is provided for or by the breeder, who is solely responsible for its accuracy—not Sheep Ireland

Evaluations should not be the only selection tool you use—animals must also be physically assessed (e.g. mouth, feet). Physical faults cannot be offset by strong evaluations and should be avoided in breeding..
See below how to interpret the €uroStar catalogue.

★★★★★

€uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- ★ Represents the **bottom 20%** of the breed for that trait
- ★★★★★ represents the **top 20%** of the breed for that trait
- Higher stars = Higher predicted profitability €

☆☆☆☆☆

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

Rank

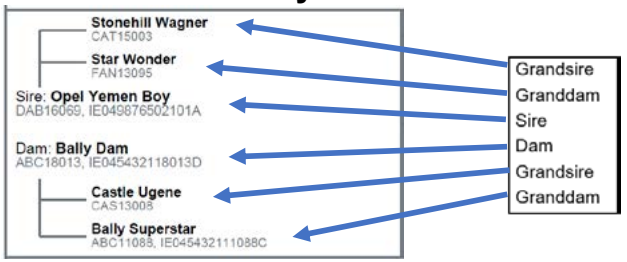

- This figure shows where an animal ranks within its breed in 20% bands—for example, "Top 20%" corresponds to five stars, while "Top 21%" corresponds to four stars (see example below

Acc% (Accuracy%)

- Accuracy indicates the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa. Acc% is displayed for the Replacement and Terminal Index, e.g. Acc 87%

Ancestry Information

Interpreting the Indexes and Traits

1) Replacement (€3.44) – Used to select rams for breeding both replacement females and slaughter lambs; This index combines survival, growth, fertility and milk traits. € value reflects **profit per lamb**, comparable across breeds.
2) Terminal (€2.86) – Used to select rams for producing slaughter lambs; focuses mainly on survival and growth traits of progeny. € value reflects **profit per lamb**, comparable across breeds.
3) Lamb Survivability – Ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving past 48hrs.
4) Days to Slaughter – Ranks animals on their genetic ability to grow. Fewer days indicates faster finishing to target weight.
5) No. of Lambs Born – Ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
6) Daughters Milk – Ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.
